

# B&D; Battery Backup for Garage Door Openers

Canonical:

<https://directory.bnd.com.au/garage-doors/garage-door-accessories/bd-battery-backup-for-garage-door-openers/>

## Description:

Maintain full function of your garage door should the power go out by installing a B&D; battery backup. During emergencies like flood or fire, or during scheduled and unplanned outages, you can always rely on Battery Backup. Compatible with all B&D; sectional door automatic openers and B&D; Power Drive roller door openers. Battery Backup automatically activates when power is lost and begins recharging when power returns. Typically provides 2-4 full cycles (lift and lower operations) per charge.
