

B&D; Wireless Safety Beams for Garage Doors

Canonical:

<https://directory.bnd.com.au/garage-doors/garage-door-accessories/bd-wireless-safety-beams-for-garage-doors-1/>

Description:

B&D; Safety Beams are specially designed to prevent potential injury to people or damage to valuables. An extra level of safety to the built-in auto-reverse functionality. Infrared sensors placed at the base of your garage door stop the door from closing if the beam is obstructed, ensuring family members, pets, and valuables are kept safe. Completely wireless with no complicated electrics required.
