

B&D; Wireless Safety Beams for Garage Doors

Canonical:

<https://directory.bnd.com.au/home-garden/garage-door-accessories/bd-wireless-safety-beams-for-garage-doors-1/>

Description:

B&D; Safety Beams are specially designed to prevent potential injury to people or damage to valuables. An extra level of safety to the built-in auto-reverse functionality. Features wireless infrared sensors placed on either side of your garage door, inches above the ground. When the door begins to close, the sensors are immediately activated. If a sensor recognises something in the path of the door closing, such as a child, pet or car, it stops the door and immediately reverses it back up.
